INDEX TO VOLUME 12, FOREST SCIENCE, 1966

Art.—article; rev.—review; art. (rev.)—review of article or book by.

Authors are indicated by capitals.

Abscissions, premature. And white oak acorn crops. art. 19
Age distribution of needles in red pine crowns art. 369
ALLEN, PETER H. art. 83
Analysis of multiple systematic remeasurements. art. 69
Angle-guage sampling a small hardwood tract. art. 83
Annosus root rot. Sporulation by Peniophora gigantea with reference to control of. art. 2
Anthocyanins of conelets in the Pinacae. art. 429
ARMSON, K. A. art. 365
ARVANITIS, LOUKAS G. art. 406
ASHTON, P. S. rev. 341
Atrazine on water relations of needles of white spruce nursery stock. Effect of. art. 338
Automatic data processing in tree improvement and genetics program. The use of. art. 214
Auxin treatment, tree age, tree vigor, and cold storage on rooting young Monterey pine. Effects of. art. 484

β-inhibitor from balsam fir on the growth of avena in bioassays. The effect of. art. 319
BAKUSIS, E. V. rev. 89
BALDWIN, GEORGE W. art. 298
Balsam fir: A monographic review. art. (rev) 89
Balsam fir on the growth of avena in bioassays. The effect of β-inhibitor from. art. 319
Balsam fir stands, immature, dry-matter production in. Roots, lesser vegetation and total stand. art. 49
BARBER, JOHN C. art. 214
BARNER, JORG rev. 68
BARR, WILLIAM F. art. 234
BARRETT, JAMES P. art. 83
Basal-crook formation in pitch and shortleaf pines. External and internal changes associated with. art. 268
BASKERVILLE, G. L. art. 49
BASKERVILLE, GORDON L. art. (rev) 89
BAUMGARTNER, art. 258
BEAUFAIT, WILLIAM R. art. 27
BENNETT, EMMETT art. 316
BENTLEY, WILLIAM R. art. 460
Biology of Conophthorus monticolae in northern Idaho. The. art. 234
Black locust in Hungary. art. (rev) 73
BONGA, J. M. art. 319
BONNER, F. T. art. 40
BOYCE, JOHN S. art. 2
BOYCE, S. G. art. 399
BOYER, WILLIAM D. art. 367
BRENNAN, EILEEN art. 386
BUFFAM, PAUL E. art. 160
BULLARD, W. E. art. (rev) 378
BURLEY, JEFFERY art. 170

Cambial derivitives, differentiation of: proposed terminology. art. 438
3-Carene concentrations. Inheritance of in Pinus monticola. art. 447
CARMICHAEL, R. L. art. 441
Ceanothus velutinus. The nitrogen-fixing capacity of. art. 164
Ceratocystis ulmi. Transpiration of elm seedlings as influenced by inoculation with. art. 44
Changes associated with basal-crook formation in pitch and shortleaf pines. External and internal. art. 268
Chemical composition of four species of coniferous seeds. Partial. art. 316
Chlorine in the atmosphere. Response of pine trees to. art. 386
CHURCH, THOMAS W., JR. art. 301

Cistus in the Mediterranean vegetation. Ecological observations on. art. 415
CLARK, J. art. 319
CLAUSEN, J. JOHANNA art. 338
Climate of a mountainous forest area. The topography and insolation. art. 258
CLYVE, HARALD art (rev) 426
Colchiploidy of Ulmus pumila and its possible use in hybridization with U. americana. art. 140
CONKLE, M. T. art. 484
CORNWALL, SUSAN art. (rev) 481
Correlation studies of slash pine tracheid length. art. 54
Cone crop. Apparent meteorological requirements for abundant. In Douglas-fir. art. 185
Conophthorus monticolae in northern Idaho. The Biology of. art. 234
Cost-effectiveness in forest sampling. art. 406
Cottonwood, eastern in the lower Mississippi valley. Variation in time of flowering and seed dispersal of. art. 343
CROSBY, JOHN S. art. 30
CUMMINGS, W. H. art. (rev) 48

DAHMS, WALTER G. art. 74
DAINES, ROBERT H. art. 386
dE KEIJZER, STEVEN art. 211
DELL, T. R. art. 356
DELL, TOMMY R. art. 22
Dendroctonus brevicomis pitch tubes. The monoterpene composition of Pinus ponderosa xylem resin and of. art. 63
Dendrometer measures of tree diameter for variations induced by moisture stress change. A method of correcting. art. 427
DENYER, W. B. G. art. 177
DERMEN, HAIG. art. 140
Destruction of radio-tagged seeds of white spruce by small mammals during summer months. art. 307
Development of the xylem ring in stems of young red pine trees. art. 198
DICKINSON, FRED E. art. (rev) 483
Dictionar forestier polyglot. art. (rev) 414
Dimethoate for Douglas-fir cone midge control. Test of guthion and. art. 160
Dipterocarp trees and forests of Brunei state. art. (rev) 341
Dormancy and dormancy release in white spruce. art. 374
Dormant buds in sugar maple. The formation and development of. art. 301
Douglas-fir. Apparent meteorological requirements for abundant cone crop in. art. 185
Douglas-fir, cone midge control. Tests of guthion and dimethoate for. art. 160
Douglas-fir forestry. Phytophthora cinnamomi, an unlikely threat to. art. 147
Douglas-fir, inheritance of cotyledon number in. art. 175
Douglas-fir needles. Effect of three variables on mineral concentrations in. art. 441
Douglas-fir seedlings. Effect of environment on heat tolerance of. art. 211
Douglas-fir, variation in sapwood thickness of. Relation to tree and section characteristics. art. 97
Dry-matter production in immature balsam fir stands: roots, lesser vegetation, and total stand. art. 49
Dry weight-diameter relationships for jack pine seedlings 365
DYLIS, N. V. rev. 118
Dynamic programming-Markov chain approach to forest production control. For. Sci. Monog. 12 (a separate)

Ecological observations on Cistus in the Mediterranean vegetation. art. 415
Education in wood science and technology. art. (rev) 48
Effect of temperature on growth and survival of Fomes annosus. art. 325
ELLIS, EVERETT L. rev. 48
Elm seedlings, transpiration of. As influenced by inoculation with ceratocystis ulmi. art. 44
Environment, effect of. On heat tolerance of Douglas-fir seedlings. art. 211
Epicormic branching of black and white oaks art. 290
Estimating foliage and branchwood quantities in shortleaf pine. art. 30
Estimating wood consumption with particular reference to the effects of income and wood availability. art. 104
EVANS, HAROLD J. art. 164
EVERARD, WILLIAM P. art. (rev) 480
Experimental ecology of cultivated plants. art. (rev) 68

FARNSWORTH, C. EUGENE art. (rev) 213
FARMER, ROBERT E., JR. art. 40, 343
FIGHT, ROGER D. art. 460
FILER, T.H. Jr. art. 432

Fires, prescribed. An integrating device for evaluating. art. 27
FRAYER, WARREN E. art. 464
Fomes annosus. Effect of temperature on growth and survival of. art. 325
Fomes annosus in roots of suppressed and dominant loblolly pines. Growth of. art. 225
Fomes annosus in the Gulf States. Soil factros associated with. art. 356
Forest evaluation. art. (rev) 426
Forest humus diagnosis on biomorphological principles. art. (rev) 476
Forest mensuration. art. (rev) 315
Forest production control. A dynamic programming-Markov chain approach to. For. Sci. Monog. 12. (a separate)
Forest-soil relationships in North America. art. (rev) 224
Forestry in communist China. art. (rev) 480
Forestry theses accepted by colleges and universities in the United States. art. 241
Forage yields. Trial of ranked-set sampling for. art. 22
Formation and development of dormant buds in sugar maple. The. art. 301
FOWELLS, H. A. rev. 213
FRANKLIN, E. C. art. 362
FROELICH, R. C. art. 356

GABRIEL, WILLIAM J. art. 14
Genetic additive variance, inbreeding effects on estimation of. art. 8
Geographic distribution of the pines of the world. art. (rev) 477
Geographic variation in survival, growth, and fusiform rust infection of planted loblolly pine. For. Sci. Monog. 11 (a separate)
Geographic variation in slash pine. For. Sci. Monog. 10. (a separate)
Germination of sweetgum in response to temperature, moisture stress, and length of stratification. art. 40
GERRARD, D. J. art. 177
GILMORE, A. R. art. 399
GODDARD, R. E. art. 54
GODMAN, R. M. art. 301
GOODING, G. V. JR. art. 325
GREGORY, G. ROBINSON art. 104
Growth response of redwood seedlings to thermoperiodism. art. 276
GRUNEKLEE, H. G. rev. 318
Guthion and dimethoate for Douglas-fir cone midge control. Test of. art. 160

HALL, GAVIN S. art. 369
HALLS, LOWELL K. art. 22
HANOVER, J. W. art. 372, 447
HANSEN, H. H. rev. 89
HELLMERS, HENRY art. 90, 276
HERMANN, RICHARD K. art. 211
HODGES, C. S. JR. art. 325
HOEKSTRA, P. E. art. (rev) 68
HOFF, R. J. art. 372
HOOL, JAMES N. For. Sci. Monog. 12. (a separate).
Hybridization with Ulmus americana. Colchiploidy of U. pumila and its possible use in. art. 140

Inbreeding effects on estimation of genetic additive variance. art. 8
Inheritance of 3-Carene concentrations in Pinus monticola. art. 447
Inheritance of cotyledon number in Douglas-fir. art. 175
Insolation climate of a mountainous forest area. The topography and. art. 258
Integrating device for evaluating prescribed fires. An. art. 27
Inter- and intra-specific differences in the root respiration rates of four hardwood species. art. 473
Inventories, forest. Weighted regression in successive. art. 464
Investigating moisture stress in trees by an electrical resistance method. art. 193

JOHNSON, NORMAN E. art. 160
JUHREN, M. C. art. 415

KELMAN, ARTHUR. art. 225
KENNEDY, R. W. art. 177
KERESZTESI, B. rev. 73
KITCHING, RONALD art. 193
KNIGGE, W. rev. 371
KOZLOWSKI, T. T. art. 338
KRUGMAN, S. L. art. 451
KUHLMAN, GEORGE art. 147
KOMMEROW, JOCHEN art. 391

Late spring frost on the radial growth of variant quaking aspen biotypes. The effect of a. art. 334
LAVENDER, D. P. art. 441

LEAK, WILLIAM art. 69
LEE, RICHARD art. 258
LEONE, IDA A. art. 386
LIBBY, W. J. art. 484
LITTLE, SILAS. art. 268
Loblolly pine. Geographic variation in survival, growth, and fusiform rust infection of planted. For. Sci. Monog. 11 (a separate)
Loblolly pines. Growth of fomes annosus in roots of suppressed and dominant. art. 225
Loblolly pine. The relationship of specific gravity to environmental factors in southern Illinois. art. 399
Longleaf pine pollen dispersal. art. 367
LOOMIS, ROBERT M. art. 30
LOWRY, WILLIAM P. art. 185

MADGWICK, H. A. I. art. (rev) 224
Maple, sugar flowers. The onset and duration of stigma receptivity in. art. 14
MAY, CURTIS. art. 140
McALPINE, ROBERT G. art. 473
McLEMORE, B. F. art. 284
MERGEN, FRANCOIS. art. 268
Meteorological requirements for abundant cone crop in Douglas-fir. Apparent. art. 185
Method of estimating streamflow loss by evapotranspiration from the riparian zone. A. art. 130
MILLER, W. FRANK. art. 296
MILLER, THOMAS. art. 225
Mineral concentrations in Dougla -fir needles. Effect of three variables on. art. 441
MIROV, NICHOLAS T. art. (rev) 118
Moisture stress in trees, investigating. By an electrical resistance method. art. 193
Monterey pine. Effects of auxin treatment, tree age, tree vigor, and cold storage on rooting young. art. 484
Monoterpene composition of Pinus ponderosa xylem resin and of dendroctonus brevicomis pitch tubes. The. art. 63
Multiple systematic remeasurements, analysis of. art. 69
Mycorrhizae, sweetgum. And some associated fung'. art. 432

NAMKOONG, GENE. art. 8
NIENSTAEDT, HANS. art. 374
Nitrogen-fixing capacity of Ceanothus velutinus. The. art. 164

Oaks, black and white, epicormic branching of. art. 290
Oak, white, acorn crops. Premature abscissions and. art. 19
Onset and duration of stigma receptivity in sugar maple flowers. The. art. 14
O'REGAN, WILLIAM G. art. 406
OSBORN, KATHERINE H. art. 241

Peniophora gigantea with reference to control of annosus root rot. Sporulation by. art. 2
PERRY, THOMAS O. art. 298
PHARES, ROBERT E. art. 30
Photoelectric seed counter for forestry research. art. 362
Photosynthetic apparatus of evergreen species. Winter breakdown of the. art. 298
Phytophthora cinnamomi, an unlikely threat to Douglas-fir forestry. art. 147
Pine, lodgepole, relationship of. Volume increment to crown competition factor, basal area, and site index. art. 74
Pines, pitch and shortleaf. External and Internal changes associated with basal-crook formation in. art. 268
Pine, red, trees. Development of the xylem ring in stems of. art. 198
Pine, shortleaf. Estimating foliage and branchwood quantities in. art. 30
Pine, slash. Geographic variation in. For. Sci. Monog. 10 (a separate)
Pine, slash, tracheid length. Crorelation studies of. art. 54
Pine trees. Response of to chlorine in the atmosphere. art. 386
Pinus monticola. Inheritance of 3-carene concentrations in art. 447
Pinus ponderosa xylem resin, the monoterpene composition of. And of dendroctonus brevicomis pitch tubes art. 63
Pinus radiata. Vegetative propagation by means of needle fascicles. art. 391
Plant colonization studies of black wastes from anthracite mining in Pennsylvania. art. (rev) 481
Pollination of western white pine with water suspension of pollen—a technique for chemical mutagen treatments. art. 372
Ponderosa pine seedlings. The effect of cold nights on the root-regenerating potential of. art. 451
Premature abscissions and white oak acorn crops. art. 19
PRODAN, MICHAIL. rev. 315

Propagation, vegetative. Of Pinus radiata by means of needle fascicles. art. 391
Provenance variation in growth of seedling apices of sitka spruce. art. 170

Radio-tagged seeds of white spruce by small mammals during summer months. Destruction of. art. 307
RADVANYI, ANDREW. art. 307
Recent Russian books on subjects related to forestry. art. (rev) 118
Receptivity, stigma, in sugar maple flowers. The onset and duration of. art. 14
Red fir seedlings. Temperature action and interation of temperature regimes in the growth of. art. 90
Redwood seedlings, growth response of, to thermoperiodism. art. 276
Regression, weighted. In successive forest inventories. art. 464
REIGNER, IRVIN C. art. 130
Relationship of lodgepole pine volume increment to crown competition factor, basal area, and site index. art. 74
Remeasurements. Analysis of multiple systematic. art. 69
Rent, forest and soil. A zero interest comparison of. art. 460
RESCH, HELMUTH. art. (rev) 371
Resin canal position in the needles of balsam, alpine and Fraser firs. art. 348
Riparian zone. A Method of estimating streamflow loss by evapotranspiration from the. art. 130
ROBERTS, BRUCE R. art. 44
ROLLER, KALMAN J. art. 348
Rooting young Monterey pine. Effects of auxin treatment, tree age, tree vigor, and cold storage on. art. 484
Root-regenerating potential of ponderosa pine seedlings. The effect of cold nights on the. art. 451
Root respiration rates of four hardwood species. Inter- and Intra-specific differences in the. art. 473
Root rot. Peniophora gigantea with reference to control of annosus. Sporulation by. art. 2
ROSS, E. W. art. 325
ROTH, LEWIS F. art. 147
RUSSELL, A. STERLING. art. 164
Rust resistance among pine seed sources and species in a Mississippi planting. Variation in. art. 461
RYKER, R. A. art. 399

Sampling, angle-guage. A small hardwood tract. art. 83
Sampling, forest. Cost effectiveness in. art. 406
Sampling, Trial of Ranked-set. For forage yields. art. 22
Sand and water culture. art. (rev) 479
SANTAMOUR, FRANK S. JR. art. 429
Sapwood thickness of Douglas-fir in relation to tree and section characteristics. Variation in. art. 97
SCHENK, JOHN A. art. 234
SCHOENIKE, R. E. art. (rev) 477
SCHULZ, H. rev. 371
Seasonal discolorization of loblolly pine foliage. art. 296
Seed, loblolly pine. Temperature effects on dormancy and germination of. art. 284
Seeds. Chemical composition of four species of coniferous. art. 316
Seeds of white spruce by small mammals during summer months. Destruction of radio-tagged. art. 307
Silvics of forest trees of the United States. art. (rev) 213
SMITH, J. H. G. art. 97
SMITH, R. H. art. 63
SMITH, V. G. art. 365
Soil factors associated with Fomes annosus in the Gulf States. art. 356
SORENSEN, FRANK. art. 175
Specific gravity of loblolly pine. Relationship of to environmental factors in southern Illinois. art. 399
Sporulation by Peniophora gigantea with reference to control of annosus root rot. art. 2
Spruce, sitka. Provenance variation in growth apices of. art. 170
Spruce, white and black, a statistical approach to the separation of. On the basis of xylem anatomy. art. 177
Spruce, white. Nursery stock. Effect of atrozine on water relations of needles of. art. 338
SQUILLACE, A. E. For. Sci. Monog. 10 (a separate)
STANLEY, ROBERT G. art. (rev) 482
Statistical approach to the separation of white and black spruce on the basis of xylem anatomy. art. 177
STEINBECK, KLAUS. art. 473
Stereum chailletti in eastern Canada. Woodwasps (Siricidae) in conifers and the associated fungus. art. 121
STILLWELL, M. A. art. 121
STOECKELER, JOSEPH H. art. (rev) 476
STONE, E. C. art. 451

STONE, E. L. art. (rev) 341
STRAIN, B. R. art. 334
STRICKLAND, R. K. art. 54
Sugar maple. The formation and development of dormant buds in. art. 301
SUKACHEV, V. N. rev. 118
SWAN, H. STEWART D. art. (rev) 479
Sweetgum, germination of. In response to temperature, moisture stress, and length of stratification. art. 40
Sweetgum mycorrhizae and some associated fungi. art. 432
SZIKLAI, O. art. (rev) 73

Temperature action and interaction of temperature regimes in the growth of red fir seedlings. art. 90
Temperature effects on dormancy and germination of loblolly pine seed. art. 284
Terminology, proposed. Differentiation of cambial derivitives: art. 438
Thermoperiodism. Growth response of redwood seedlings to. art. 276
TOOLE, E. R. art. 432
Topography and insolation climate of a mountainous forest area. The. art. 258
Tracheid length. Correlation studies of slash pine. art. 54
Transpiration of elm seedlings as influenced by inoculation with ceratocystis ulmi. art. 44
Treatise of forest utilization. A. art. (rev) 371
Trial of ranked-set sampling for forage yields. art. 22

Ultrastructural plant cytology. art. (rev) 482

Variation in sapwood thickness of Douglas-fir in relation to tree and section characteristics. art. 97
Variation in time of flowering and seed dispersal of eastern cottonwood in the lower Mississippi valley. art. 343
Vegetative propagation of Pinus radiata by means of needle fascicles. art. 391

WAKELEY, PHILIP C. For. Sci. Monog 11 (a separate)
WALKINSHAW, C. H. art. 356
WALTERS, J. art. 97
WARD, W. W. art. 290
Waste-land replanting in the Ruhr coal region. art. 318
Water relations of needles of white spruce nursery stock. Effect of atrazine on. art. 338
WELLS, OSBORN O. For. Sci. Monog. 11 (a separate) art. 461
WELLWOOD, R. W. art. 97
WEST, WILLIAM I. art. 241
WHITMORE, F. W. art. 198
White spruce. Dormancy and dormancy release in. art. 374
WILLIAMSON, DARRELL L. art. 234
WILLIAMSON, MALCOLM J. art. 19
WILSON, B. F. art. 438
Winter breakdown of the photosynthetic apparatus of evergreen species. art. 298
WODZICKI, T. J. art. 438
Wood consumption with particular reference to the effects of income and wood availability. Estimating. art. 104
Wood dictionary: volume two. art. (rev) 483
Woodwasps (Siricidae) in conifers and the associated fungus, stereum chailletti, in eastern Canada. art. 121
WORRALL, JOHN. art. 427
WRIGHT, JONATHAN W. art. (rev) 414

Xylem anatomy. Statistical approach to the separation of white and black spruce on the basis of. art. 177
Xylem ring in stems of young red pine trees. Development of the. art. 198

YODER, RAY A. art. 241
YOUNG, HAROLD E. art. (rev) 315, 426
YOUNGBERG, CHESTER T. rev. 224

ZAHNER, ROBERT. art. 198, 438
Zero interest comparison of forest rent and soil rent. A. art. 460
